Commissioner:

A response to the October 6, 2003 Office Action in this case was filed on February 23, 2004. The Office recently pointed out to George Gerstman, one of Applicant's representatives, that new claims 47-59 from that response were not added in accordance with 37 C.F.R. §1.173(b), and that this mistake must be corrected before the application can issue. According, Applicant submits this amendment to correct that inadvertent error, and add new claims 47-59 pursuant to the format required by Rule 173(b).
